Hi Steve,

I will be out in the field on June 4th. I Should be available the 8th or the week of the 15th in June. Please let me know if you would like to use the START office and I will arrange a room and call in number.

Thanks,
Elliott

Subject: R n B / Gold King - planning mtg

Elliott and Allen,

Matt and I just talked about the need to review and finalize some of planning for the both projects in Silverton. The soonest that I am able to do this is June 4 – mid morning and then again Monday, June 8 in the afternoon between 12 and 5. Later that week might work also, but I am on Response Duty that entire week – so it might change. The week of June 15 also works.

Location could be the START office at Garrison and Colfax. (Conference call is an option – Allen especially for you if that makes it easier – and the topics that your involved with directly is more limited.)

Duration maybe 2 hours...?

Topics:

1. Work Plans and H & S Plans
2. Water treatment system – supplies, pumps, personnel, layout plans
3. Site Preparation – schedule, scope, planning, Office trailers/comms/other
 - a. Gold King
 - b. R n B
4. County Land Use Permit –details, concerns from County (damage on shoulders of roads)
5. Bulkhead
 - a. pressure gauge selection / purchase
 - b. Subcontractor schedule
 - c. Inspections - ground support PE sign off
 - d. Construction inspections – as per design:
6. Pre-bulkhead Monitoring at Adits and Surface Water
7. Piping Installation – both mines: size, type, logistics (Gold King), recon – May 27

8. Pond Expansion – details, supplies, who needs to be there
9. Operations – overall task review and staffing
